Let Us Entertain You

- A powerful 8-inch driver with a 1.5-inch four-layer voice coil
- A BASH® amplifier for high efficiency, with low heat buildup
- A slotted port cabinet to reduce distortion and increase efficiency

SUB 250
A powerful sub makes any system more dynamic and entertaining. And that's what the SUB 250 does. It is equipped with a powerful 8-inch long-throw woofer unit housed in a unique slotted port cabinet with a BASH® amplifier capable of delivering 250 watts of peak power. The powerful amplifier, increased cabinet size and ported design, make this subwoofer capable of delivering both a higher sound pressure level (SPL) and a flat frequency response—all delivered, of course, with maximum musical fidelity and a flat frequency response. The 8-inch driver features a 1.5-inch four-layer voice coil. Heavy magnet systems feature a vented pole piece in order to avoid extremes in pressure behind the dust cap (mechanical damping) when the cone is moving.

At the heart of this powerful subwoofer is a long-throw super driver, capable of moving large amounts of air with incredible speed and precise control. The results - more power and performance for fantastic movie effects and deep bass notes you feel as much as hear. The compact SUB 250 adds strong, clear bass to any 2-channel or home theater system.

Specifications

System Type	Slotted port
Woofer (mm/in)	203 / 8
Rated output (W)	250
Frequency Range (Hz)	30 - 150
Impedance (Ohm)	22k
Weight (kg/lb)	13 / 28.7
Product dimensions (mm/in, HxWxD)	325 x 267 x 469 / 12.8 x 10.5 x 18.5
Finishes	Black or Dark Apple
